THE MORAL ARC: HOW SCIENCE AND REASON LEAD HUMANITY TOWARD TRUTH, JUSTICE AND FREEDOM (PAPERBACK)

Griffin Publishing, United States, 2016. Paperback. Condition: New. Reprint. Language: English. Brand new Book. From Galileo and Newton to Thomas Hobbes and Martin Luther King, Jr., thinkers throughout history have consciously employed scientific techniques to better understand the non-physical world. The Age of Reason and the Enlightenment led theorists to apply scientific reasoning to the non-scientific disciplines of politics, economics, and moral philosophy. Instead of relying on the woodcuts of dissected bodies in old medical texts, physicians opened bodies themselves to see what was there; instead of divining truth through the authority of an ancient holy book or philosophical treatise, people began to explore the book of nature for themselves through travel and exploration; instead of the supernatural belief in the divine right of kings, people employed a natural belief in the right of democracy. In this provocative and compelling book, Shermer will explain how abstract reasoning, rationality, empiricism, skepticism-scientific ways of thinking-have profoundly changed the way we perceive morality and, indeed, move us ever closer to a more just world.
